Project Sprint Planning Notes

Team: 02

Sprint: 2

Date: 17/08/2020

Attended:

Scrum Master: Austin Lay

Product Owner: UJJ Batra

Development team:

Danny Khoo (s3601030)

Joshua Monaghan-Landy (s3687337)

Daniel Ong (s3676400)

1. Goal

What is the aim that you are trying to achieve by running this sprint?

Finish off integrating Backend with front-end UI and main functionality of adding a booking, viewing booking history and canceling and booking.

2. Duration of the sprint

2 weeks

3. What is the team's vision for this sprint?

Which items of the product backlog will be committed to sprint backlog and why?

PBI 21, 9, 11, 20, 25

PBI 21: Viewing booking history functionality committed to the sprint

PBI 9: Checking availability of a service, function needed for searching for bookings

PBI 11: Book a service with a provider, main functionality of the entire project needed for viewing booking history and canceling bookings

PBI 20/25: Cancel bookings part of the sprint goal of being able to cancel a booking

What will the potentially shippable product look like in the end? What features will it have in its working form?

Customers will be able to make bookings, view previous all bookings, and cancel bookings

4. Estimation in story points

Team to estimate story points for each of the items. Provide some sort of justification.

The 12 deliverables will cost a total of 50 story points. Breakdown and justification can be seen in Notion > Sprint 2 Backlog > Tasks view.

Do not write more than 2 pages for each of the sprint. Replace the the highlighted yellow hints by your text.
